The biggest change that the troops of the "Iron Fist" Division will find at Camp Grayling this weekend when they arrive for their summer training, will be the vast amount of work going into the construction of the new M-93 entrance into the camp area. In the photo above, a large crane is pulling three stumps from the soon-to-be right of way.

### TWO GRAYLING TEENS NOW IN EUROPE

More than six hundred young people left from Detroit Metropolitan Airport on a mission of good will and international understanding in June, under the auspices of the Youth for Understanding Program. Coming from more than 200 high schools in Michigan, these young people will spend two months as members of families in 14 different countries.

Among them are: George Stancil, Lake Margrethe, who is in Holland for the summer, and Rhea Stripe, 608 Park Street, who is in Spain for the summer. Both are Grayling High School students.

Placements with families have been made by local committees in Finland, Sweden, Denmark, Germany, Holland, Austria, Switzerland, France, Spain, England, Ireland, Mexico, Uruguay, and Japan. Mrs. Rachel Andersen is the executive Director of the program which is now in its fourteenth year of operation. Organized "to develop international understanding through a living experience with a family in another country," the program is both interfaith and interracial in its scope. A group of 90 adult leaders accompany the group and will call in the homes of their host families.

**YOUTH FOR UNDERSTANDING** is also spoken of as the "Michigan Teenage Exchange" because it brings youth from Europe and Latin America to Michigan. A farewell for the 400 European young people who have been here this year will be held in Northville, Michigan, on July 28 before sailing home on the Aurelia from New York on the 29th.

### July 4th Fete Highly Successful

In the words of those who were kept endlessly busy supplying and entertaining the crowd who attended the July Fourth celebration in Grayling this year, they have never seen such a turnout for any event here at any time. The weather was perfect, the spirit of cooperation among all the groups taking part was phenomenal and delightful to experience, and everyone had a wonderful time with only a few possible exceptions. Kip Papendick, one of the fireworks crew, was burned but not seriously and the skydivers found a ground wind had sprung up just before their third jump which made them overshoot their target and land on Alger Street instead of the country club grounds, but they came down safely. Arthur Wilcox, Patrick Gorman, Mitchell Hildebrand and Robert Muth received some cuts on toes and feet from rocks and broken glass in the river bottom while taking part in the greased pole contest. This area had been thoroughly cleaned by the firemen just the week before.

Fire Chief Frank May again extends thanks to the men of the Department and to the Moose Lodge for backing them up in the day-long program, and to everyone who in any way helped to make the celebration the outstanding success it was.

A total of \$67 in cash prizes was awarded in the contests during the day. The water battle was won by the firemen, the greased pole climb by Dale Papendick and Ronnie Knuth. In the canoe race Mike Lovely and Larry Korhonen were winners. The Junior Class dragged the Seniors through the water in the tug of war contest again this year. Two hundred watermelons were cut up and dispatched by small fry in the shortest possible time. In the three-legged race Curtis Carrievau and an out-of-town boy were winners.

### Golf Club Auxiliary

There were 29 members out for play on June 30th. Prizes were awarded to Judy Johnston for low net and Thelma Madsen for high net in Flight B. Flight A winners were Corinne Smith for low net and Marian Sherwin high net.

Twenty-four ladies stayed for the luncheon served by Elsie Jansen, Judy Johnston and Mary Jane Knibbs.

An invitation to the ladies party to be held on July 21 at 2:00 at the Camp Grayling Officers' Club was announced. It was decided to cancel the golf luncheon for that day so the ladies could attend.

### Little League

Little League Results:  
June 22 — Military vs. Moose, rain.  
June 23 — Sorensons 15, Legion 2.  
June 25 — Sorensons 10, Legion 6.

June 30 — Sorensons 19, Moose 4.  
July 1 — Military 21, Legion 1.  
July 2 — Sorensons 21, Moose 0.

The schedule has been postponed until after the tournament games to enable the work detail to get the field in regulation playing condition for the Little League tournament to be held on July 22-23-24.

Leading the way prior to the movement of the main body will be assortment of advanced details, including the Division Headquarters, which will spend several days adding the finishing touches to the preparation of the camp such as pitching tents, drawing equipment from warehouses and putting mess halls and other facilities in first class operating condition, and preparing for administrative support of the 46th Inf Div.

Highlights of this year's field training period will include advanced unit training for company and battery size units, down to and including squad level tactics, instead of the customary basic unit program. Other innovations will include combined infantry-artillery training scheduled for 15 and 16 July and 19-22 July. It is anticipated that six rifle companies will participate in the training with one company negotiating the course on each of the six days scheduled.

There will also be a combined engineer rifle company problem which will feature the rifle company in a night attack utilizing the Engineers to effect a night river crossing in assault boats.

The strength of Michigan National Guardsmen at Camp Grayling will increase measurably on 17 July when the 2d Bde, 46th Inf Div, Armor and other units report to begin their two-week training session. They will encamp during the period 17-31 July.

Another first for the Michigan Army National Guard at Camp Grayling will be the combined Memorial Service - Division Review scheduled for Sunday, 18 July. In the past years the Division Review was held on Saturday,

While the Army Guard units, with the exception of the 156th Sig Bn which will be training at Camp McCoy, Wisconsin, are undergoing training at Camp Grayling, the Air National Guard will commence summer field training at Phelps Collins Air National Guard Base, Alpena.

## Fourth Traffic Safe in County

Only a pair of minor property damage accidents were reported in Crawford County over the long Fourth of July weekend. Crawford County Sheriff Arthur Clough reports. Despite the heaviest traffic in history of the county, no personal injury or fatal accidents occurred.

Last Friday night, a California driver was arrested after being in an accident on US-27 expressway south of Grayling while driving in the wrong lane. He was released on \$100 bond after being held for some time, to face court later.

State Police of the Houghton Lake Post made the arrest. They stated that Floyd Huff, 29, of Warren, the other driver in the accident, was a lucky individual. State Police said he was slowing down in the left, northbound lane of US-27 at 2:45 a.m., preparing to turn off into Military Road eight miles south of Grayling when he saw headlights coming south in his lane.

A MOMENT later, police said, the car of Paul Miller, 31, San Carlos, Calif., bobbed over the hill, coming the wrong way, and headed straight for Huff.

The cars managed to turn out enough so that Huff's car was struck only in the right front by the Miller auto before it veered off into the median strip.

A final meeting of the planning committee will be called at an early date for an accounting of funds.

No one organization made much profit from the project, but certainly a community service was provided and the day was filled with fun and cooperation—such as must have been the feeling of our forefathers on the first Independence Day more than 200 years ago!

## BITS O' TALK

Mr. and Mrs. John Thomson and ten children of Chelsea stopped Friday for a visit with his brother and family, the Paul Thomsons, enroute to Hancock.  
Tony Trudeau and Jack Taylor were fishing Tuesday night on the South Branch last week a half-mile above the Ox Bow Club when their flashlight beam showed a deer standing crossways in the river. They kept to one side so as to give the animal room to get out of the water, but it paid no attention to them until they were alongside. The deer seemed to suddenly become aware of them and with a mighty leap jumped towards them and clear across the boat, bumping Mr. Taylor's shoulder and knocking off his glasses, and nearly putting him into the water.

Mr. and Mrs. Herbert Stephan and Mrs. Carl Larson attended the 25th wedding anniversary open house given for Mr. and Mrs. Charles Corwin, Jr., by their children Mr. and Mrs. Richard Corwin, and fiancée Connie Root at Richard's home in Saginaw on June 27th, going down the day before. Mr. and Mrs. Pete Stephan and children attended the celebration on Sunday.

Mr. and Mrs. Earl Jensen and children Chris and Eric of Pontiac are spending two weeks at Otsego Lake in the cottage belonging to their parents, Mr. and Mrs. Leonard Jensen, Jr., and Jim, Steve and Mike of Warren were at their place on Heart Lake for the holiday week end and also visited their parents. Their brother Butch (Pfc. Louis) Jensen has sent home word that he is on his way to Viet Nam from Camp Pendleton, California. Polly Jensen visited her sister and family the Hales in Garden City, then accompanied her brother Leonard and family here Friday.

The down river area experienced a fire Sunday afternoon, June 27, about one acre, caused by a tree falling across and breaking the power line just east of the W. Edward Myers home on the U. Sable. The blaze was spotted by the Down River Fire Tower and fire truck and tractor-pump were sent in and directed by the conservation plane to plow around the fire. Arthur and Joe Wakeley and Norval Stephan gave help to Fire Officer Forrest Annis and Jack Pettyjohn and Conservation Officer Russell Wright. Repairs were soon able to mend the power line break. The conservation equipment then had to plow around the blaze just outside of Frederic which had been handled by the Frederic fire department, and held to one-tenth of an acre.

Mr. and Mrs. Robert McIntosh had as their guests for the holiday weekend her sister and husband, newlyweds Mr. and Mrs. Jerry Corey of Farmington.

Guests of Mr. and Mrs. George Munford this week for a few days are Miss Norma Sammit and Miss Marjorie Willet of Detroit, who came Tuesday.

Mr. and Mrs. Evert Jones entertained their son Jack of Pontiac, their daughter Jill and fiancé Richard Boyd of Flint for the holiday weekend. Last week they entertained Mr. and Mrs. Carl Beers of Pompano, Florida, for a couple of days. Another daughter, Mrs. Joseph Walsh and children of Caseville left Monday last after spending a week here with her parents.

Mr. and Mrs. Joe Hull's holiday guests were their son Bob and family of Lansing and Mrs. Hull's aunt Dottie who flew here from England for a three week visit last Friday. The Jack Smith family of Cass City were expected up to visit the Roy Smiths and the Joe Hulls over the holiday also.

Mrs. Jane Ann Petach, accompanied by Miss Cindi Carlson, drove her daughter April to Camp Tanaga last week where she will spend some time.

Mr. and Mrs. Jack Redhead, Sr., of Lander, Wyoming, and their son and family, the Jack Redheads, Jr., and children of Lansing, enjoyed a ten-day camping stay at the Lake Margrethe state park. The senior Redheads renewed old friendships and were entertained while here, Mr. and Mrs. Charles Duncanson and family of Saginaw, and the Harold Litzkes and children of DeWitt joined the group for a few days during last week. The families returned home Friday, the senior Redheads by way of the U. P. It has been six years since they visited Grayling last.

Miss Carolyn Klein left by bus Tuesday to visit her brother and family, the Richard Kleins in Okemos. They all returned here Friday, the Richard Kleins staying over the Fourth. Other guests at the Klein home were the John Ugo family of Detroit who also spent the long holiday weekend.

## Letters To The Editor

June 29, 1965

My dear editor,  
I will be a senior at Grayling High next fall. For my friends and myself the summer is only a long vacation from schoolwork. Most of us hold summer jobs and, as expected, they take up much of our time.

Last year we looked forward to Thursday nights. On these occasions a teenage dance was held behind Day's Drive-In. It was an opportunity for young people to keep in touch with old friends and to meet new ones.

Now this year there are no dances. Why? Aren't there any citizens in this town who will sponsor a teenage dance?

This summer the teens are forced to look elsewhere for dancing fun. Many drive to Houghton Lake or Gaylord. This means that Grayling is losing its youth for a couple of nights a week. "There is just nothing to do in Grayling" is a statement I've heard many times. Adults, isn't this about true?

When are you people going to realize that young people need places that they can go to in their home town. Many wonder why G. H. S. graduates seldom return to Grayling. Could this be one of the reasons?

Adult population, please help and support these dances. They should be only the beginning!

A Dancer of G.H.S.

## Three New Bowhunting Films Available From Grayling

Three new bowhunting adventures, "Land of the Tiger," "Kodiak Country" and "Fins, Feathers and Fur," have been added to the extensive library of exciting archery films produced and distributed by the Grayling Film Service, Grayling, Michigan. Like all Grayling features, these new 25-minute thrillers are available for club and organization viewing.

"LAND OF THE TIGER" traces the adventures of Fred Bear, America's foremost bowhunter, in exotic India and his search for Sher Kan, the great Bengal tiger. The viewer actually witnesses the suspenseful climax as native hunters drive the wily cat toward the waiting bowman. Bear's experiences as a guest in the magnificent palace of the Maharaja of Bundi, his hunt for the Sambur, Nilgai and Axis deer are all included in this absorbing film.

"KODIAK COUNTRY" is set in the majestic coastal wilderness of Alaska. Featured is the two-season hunt (fall and spring) for the

greatest carnivorous animal on land, the powerful Kodiak bear. "Kodiak Country" includes one of the most breathtaking hunting sequences on film as the archer faces a thousand pound bear across 20 feet of open beach. In addition to the thrill of the bear hunt, this film includes encounters with other wildlife such as whales, sea lions, sea otter, fox, bald eagles and spawning salmon.

"FINS, FEATHERS AND FUR" primarily deals with the off-season sports available to the adventurous bowman. Actually, three stories in one, the film depicts winter bow-fishing for saltwater stringrays off the Florida Keys and summer expeditions for 200-pound alligator gar in southern rivers, followed by wing shooting pheasant in the fall. The seasonal cycle is completed with a northern winter hunt for bobcats, using hounds and snowshoes.

## One Nation Indivisible

"...That this Nation, under God..."  
Words that bind a Nation's wounds — healing hearts that have affliction known.  
We pause, this day, to remember and to forget:  
Yet, not to forget the battles lost  
or victories won, or soldiers' silent sleep,  
Who, by their death, gave life; life that throbs and pulsates in this Nation's womb.  
We pause to remember our gifts from God from whom our blessings in abundance flow.  
We find our God, at home in church, in hearts that this day sing out in joy.  
We thank Thee, Dearest Lord. Now, bless us, and this "Thy land and all therein... our own, our native land!"

## Insidious And Subtle . . .

Inflation, until it reaches a runaway stage, is insidious and subtle. It creeps quietly along, nibbling little bites from our money.

Thus, the Labor Department reports that living costs in April took their biggest jump since last July. The increase, it is true, was only three-tenths of one per cent. That isn't much. But such continuing increases can in a short period of years reach monstrous proportions. And, once sufficient momentum is gained, inflation stops creeping and leaps.

There are numbers of factors which can cause inflation. The most important long-run factor is deficit-ridden government which keeps boosting the debt and money supply. There is the gravest kind of danger in the philosophy which holds that deficits are unimportant and that the national debt is simply something the people owe to themselves.

The great goals which are forecast for this nation can never be reached if the currency is continually degraded.

## The Poverty Problem . . .

The Chamber of Commerce of the United States organized a Task Force on Economic Growth and Opportunity, consisting of more than 100 leaders of industry, business and finance, to make an independent, constructive examination of the poverty problem. Its first report has been issued and others will follow. The group fully recognizes that poverty is a very real issue in this country. It finds that its alleviation is a prime social and national goal. But it questions, and with every reason, if large-scale programs such as road construction and urban renewal can effectively combat poverty. And it recommends that priority be given to

human resource development programs that "provide people with the help and opportunities to move out of poverty and become productive citizens."

This goes to the core of the problem. There are, of course, a number of totally dependent poor who for one reason or another — age, illness, disability — cannot help themselves. They must be given relief, and that is certainly a function of society. But, as the report emphasizes, the poor who can be helped to help themselves can best be aided by such measures as education, training, rehabilitation and so on. In its words, simply to offer such people guaranteed incomes or similar welfare does "is to write off their lives."

And, let it be remembered, the sound long-run solution to the poverty problem is to build our economy, thus creating more jobs, more wealth, more opportunity.

JULY 9, 1942

A terrific windstorm came up suddenly Tuesday night about 10 o'clock and played havoc in the city for a few minutes. A huge poplar tree near the Julius Nielsen property was blown down and fell across the electric wires, hindering electric service on the circuit in that part of town for several hours. Huge branches were blown from many other trees around town. This is the second time this summer that a poplar tree has brought down electric wires. A larger poplar tree also was blown down at the S. D. Palmer home. There was a large crowd of people at the carnival at the City Tourist park, who made a wild scramble for safety. Heavy leather seats were tossed out of the circle swing, but no damage resulted except to disperse the crowd too early.

A record amount of money poured into the cash registers of local stores, putting most of them ahead of their previous highs.

Good progress was made by those selling cars, food, household appliances, clothing and furniture, among others.

Just how well they made out is shown in a new report on consumer buying, released by the Standard Rate and Data Service. It reveals the way people in each section of the country have been spending their dollars.

In Crawford County, a large part of it went for food. The amount spent in the year in local grocery stores, bakeries, butcher shops, supermarkets and such came to \$2,440,000.

THIS OUTLAY was solely for food that was purchased for home consumption. Not included was the sum spent in restaurants, at lunch counters and in other dine-and-drink places.

Approximately 25 cents of every dollar that was spent in local retail stores went for such food purchases.

If the \$2,440,000 that was expended for food were divided equally among all local families, each of them would have a bill of \$1,683 for the year.

This is more than was spent in most parts of the United States. The average was \$1,089 per household. In the State of Michigan it was \$1,249.

Other retail lines also shared in the strong consumer buying locally. Stores selling automobiles, motorcycles, boats and other automotive equipment had receipts totaling \$2,012,000 for the year. This was equivalent to 21 cents of every dollar spent at retail.

Sales of general merchandise, in variety and department stores, came to \$508,000, or 5 cents of the dollar.

Specialty stores and apparel shops, including those carrying dresses, shoes, hats and other clothing, had a sales total of \$377,000, or 4 cents.

Home furnishings and furniture stores accounted for \$170,000, representing 2 cents of the dollar.

According to preliminary reports covering the early part of this year, consumer spending continues strong. Advances comparable to those made in 1964 are indicated.

## LOCAL RESIDENTS GROWING TO NEW HEIGHTS

(Special to the Avalanche)

New York — Does a person's height have anything to do with his success in this world?

If it does, as some statisticians seem to indicate, then the youngsters now growing up in Crawford County have a bright future in store for them.

Figures show that the present generation of young men is taller, physically, than any previous one. The average youth of today is noticeably taller than his father was at the same age and considerably taller than his grandfather was.

The latest findings are that the height of the average 25-year-old man is approximately five feet ten inches, which is about an inch more than his father reached and nearly two inches more than his grandfather attained.

The figures are based on national studies made by the Department of Agriculture, on actuarial data compiled by insurance companies and on Selective Service statistics.

As a whole, present residents of Crawford County are nearly three percent taller than their 1915 counterparts were at the same stage. Expressed numerically, it takes only 97 current-vintage men to equal 100 of these forebears — physically, that is.

If the local population were to be reconstructed to the size of the 68-inch men, the 62-inch women and the smaller children of that period, which probably never will be done, there would be enough left over to assemble 153 additional Crawford County residents of 1915 stature.

The increase in size is more than a matter of light humor to industry. Clothing manufacturers have to allow for more yardage per garment than formerly. Beds and mattresses have had to be made longer. Chairs must be wider and deeper.

As to tall men being more successful, weren't Napoleon and Winston Churchill short? True enough. They and countless others of short stature climbed to great heights.

However, it is pointed out, 21 of the last 23 presidents of the United States were taller than average. Lincoln, at six feet four, topped them all. President Johnson's six feet three puts him in second place.

Also, it is noted, taller people carry more insurance than shorter ones. The conclusion made is that their incomes are greater and, therefore, they can afford more.

## \$2,542,000 a Year to Run Local Cars

(Special to the Avalanche)

NEW YORK — With many Crawford County families planning to take automobile trips to various parts of the country this summer, the question of cost gets top consideration.

The indications are that travel costs will be only slightly greater than they were last year.

**THE BASIC expenses** — for food and for overnight lodging — will be about the same. On the other hand, highway tolls and charges for gasoline and other items will run somewhat higher in certain areas.

The figures on travel costs come from the American Automobile Association and the Commerce Clearing House.

On the basis of their findings, Crawford County residents must count on a daily budget of \$31 to cover necessary expenditures for two people.

This assumes that they travel 300 miles a day and that they get 15 miles to the gallon of gas.

Included in the \$31 daily cost are \$1.00 for overnight accommodations, \$10.50 for meals and snacks, \$7.00 for oil and gas and

## Road Commissioners Minutes

June 17, 1965

A special meeting of the Board of Crawford County Road Commissioners to attend a meeting of the Vacationland Conference of Road Commissioners, Engineers and Superintendents at Redwood Golf Club in Roscommon County. Commissioner Elmer A. Corsaut, Chairman, and Eng-Supt. Bruce Carlson attended the meeting.

U'Harley Russell, Secretary

June 18, 1965  
A regular meeting of the Board of Crawford County Road Commissioners was held in their office in Grayling. The meeting was called to order by Chairman Corsaut. Members present, Commissioners Elmer A. Corsaut, Howard H. Mead, and Harold T. Johnson, and Eng-Supt. Bruce Carlson. Absent, none.

The minutes of the last regular meeting were read. A motion was made by Comm. Mead, seconded by Comm. Johnson, that the minutes be accepted as read. All voted in favor, motion carried.

The General Telephone Company asked permission to bury a telephone cable from M-72 southerly toward Lake Margrethe at McIntyre's Landing Road, the cable to be along east-north-west road right of way at a depth of 30 inches. Also to abandon existing buried wire on road right-of-way in place.

A motion was made by Comm. Johnson, seconded by Comm. Mead, that such permission be granted. All voted in favor, motion carried.

A preliminary Plat Plan, "Blueberry Hill", a part of the NW 1/4 of NW 1/4, Section 33, T25N, R1W, South Branch Township, was presented for approval. A motion was made by Comm. Mead, seconded by Comm. Johnson, that the revised plat plan "Blueberry Hill" be approved. All voted in favor, motion carried.

The Commission visited the Clarence Holcomb's "Grayling Manor" subdivision and authorized his cash bond of \$500.00 for completion of the roads in the subdivision to be returned to him at such time as the roads are deemed satisfactory by the superintendent.

The Road and Bridges Committee of the Board of Supervisors, Carl Freund, Chairman, Bernard Fowler and William Miller, met with the Road Commission. The Auditor General's recommendations, as they affect the Road Commission, were discussed. As a result of a recent court action involving an injunction to prohibit the plowing of private driveways by Road Commissions, and as a result of the Board of Supervisors rescinding their action of September 12, 1960, regarding the plowing of private driveways by the Road Commission, Comm. Mead, moved that the Crawford County Road Commission discontinue all plowing of private driveways and private roadways immediately and that letters be sent to all who received such service the past year, notifying them of the discontinuance of this service. The motion was seconded by Comm. Johnson. All voted in favor, motion carried.

There being no further business, a motion was made and seconded to adjourn. All voted in favor, motion carried; meeting adjourned.

The Probate Court for the County of Crawford

At a session of said Court, held at the Probate Office in the City of Grayling in the said County, on the 4th day of June, A.D., 1965

Present, HONORABLE Emil L. Kraus, Judge of Probate.

In the Matter of the Estate of

\$2.50 for tips and miscellaneous needs.

It is pointed out that this does not make any provision for amusements, souvenirs or recreation.

In connection with its report on vacation costs, the AAA has issued new figures on the annual expenses involved in the ownership and operation of a car.

The typical driver of a standard-size car in the popular-price range, driven the average amount of 10,000 miles a year, it comes to \$1,177, equivalent to 11.8 cents a mile. This compares with 11.6 cents last year.

For the number of passenger cars in Crawford County, the cost of car ownership, on this basis, amounts to a hefty \$2,542,000 a year.

**MOST OF THE \$1,177** is for fixed costs, which have nothing to do with how much the car is used. They total \$807 a year, including \$238 for depreciation the first year. The rest is for insurance and license fees.

The variable costs total \$370 for 10,000-mile use. The largest part of this, \$258, is for gas and oil. The increase in the number of cars is reflected in the volume of business done by Crawford County's gas stations. In the past year it reached \$2,180,000, a rise from the previous year's \$1,737,000.

## Litter Pick Up Costs State of Michigan \$750,000 Yearly

### DIRTY PEOPLE

SOCIAL CHANGE is a major cause for the estimated \$750,000 Michigan taxpayers must each year just for picking up litter, according to a national study.

The Institute for Motivational Research recently confirmed previous indications that thoughtlessness and carelessness were the chief reasons people strew litter in public places.

"Apparently the complex social trends of our modern world have tended to sever the individual's relationship to his community and thus reduce his sense of social responsibility and civic pride," the study says.

**SIMPLY STATED**, the Institute reported that the litterer who would not think of dropping his cigarette pack on his living room floor could be expected to discard it unnoticed in a public building.

Much of the cost of pickup is on the highways. State Highway Department officials estimate it costs an average of 32 cents to pick up a single litter item.

Cleanup campaigns in communities across the state properly center the burden of responsibility on each individual. Yearly statewide cleanup costs would indicate a need for these special campaigns to last 12 months rather than just a few days or a week.

**LITTLE RELIEF** has been gained to date from Michigan's anti-litter law, touted as one of the best of its kind in the nation, although a stepped up enforcement program is under way.

As Gov. George Romney said in a proclamation for Michigan's special cleanup week this year, "it is absolutely essential for every citizen, regardless of where one lives or how busy one is, to exercise a responsibility to keep the state clean."

cise a relentless concern and personal responsibility to keep trash of any kind off our public and private thoroughfares and lands."

There is one year-round private statewide effort being conducted to rid Michigan of litter problems. Working in cooperation with the State Chamber of Commerce, Keep Michigan Beautiful, Inc., has as its goal "to make Michigan the best groomed state in the nation."

To achieve this worthy goal, the organization is soliciting and must have the support of all government agencies, industries and individuals.

### KEEN COMPETITION

**TALK ABOUT** a unified budget request for higher education seemed just so much malarkey when spokesmen for the various institutions went before the legislative appropriations committees this year.

Previously hope was voiced by some spokesmen that a single budget request could be planned for next year. When this year's hearings went down to the wire it was the same old story, however.

The story, so familiar because of its annual retelling, goes, "Once upon a time in years back, and today, and tomorrow and next year we have been, are and always will be the worst."

**EACH INSTITUTION** has its reasons why it should get the lion's share of the higher education budget pie.

Spokesmen for one institution say it needs more money because of its extensive graduate program. Others need a big share of the funds because of the growing area demand for education facilities.

Still a third provides some specialty field of training which demands special consideration, and another demands attention simply because its administrators feel they are not getting their fair share.

At the continuing rate of rivalry between the several state-supported colleges, it would appear there is little hope of any future agreement on a unified budget request for higher education.

**COLLEGE OFFICIALS** are not alone in presenting the "I like me best and you should too" attitude to the legislature, however.

Every agency administrator in state government brings in a similar plea when the budget hearings are held annually. This year, legislators will hear this twice, but the colleges will be left out of the second round.

Once the budget is settled upon hearings are anticipated on the government reorganization proposals. In these the fighting is likely to become even more bitter since administrative survival will be at stake.

In budget hearings, agency heads know they will get some portion of their request. Government reorganization will result in the absorption of some agencies and possible abolition of others.

### RECORD COUNTS

**PROOF OF effective service** likely will become a key tool in arguing for self-preservation in the reorganization shuffle. It also looms largely as a big vs. little fight.

Each agency head will want to remain at or near the top of the bureaucratic hierarchy.

Chiefs of smaller units, such as the banking department, will have an uphill battle trying to convince the legislators they have what it would take, for example, to assimilate the insurance department, municipal finance commission and other agencies which might be lumped into a single department.
